FORWARD

It is an era to lead and facilitate by the Information Communication Technologies (ICT) in every sector of knowledge, information and Humanities. The ICT Web-based Higher Education Humanities Information System (HEMIS) plays a pivotal role in ensuring the effective planning, administration, academic excellence, and sustainable growth of our campus. This system provides a comprehensive overview of our institution's facts (Students, Teachers and Non-teaching staff, infrastructure, and facilities) performance (Enrollment, Upgrade, Graduation etc.), challenges, and strategic initiatives over the Academic Year/Reporting Period.

Aligned with the vision of University Grants Commission (UGC), this System create an opportunity to integrate and centralize the inserted data to the University and UGC as a Real Time Data to take the decision against response and resources allocation. the system provides the platforms to information dissemination to UGC for its key achievements in teaching, research, infrastructure development, and student services. It also identifies areas requiring improvement to enhance institutional effectiveness and stakeholder satisfaction.

We extend our gratitude to UGC for the support of grants to develop the HEMIS and thanks to faculty, staff, students, and administrative teams whose dedication has been instrumental in driving progress to develop HEMIS and its effective implementation. Special thanks go to IT Department and dedicated teams of Computer operators for their contributions to data collection, input, analysis and feedback to operational/ fictional test and its validity/authenticity.

As we move forward, The HEMIS will be inevitable system to manage college/ academics holistic. this web-based centralized integrated system serves as both a reflection of our accomplishments and a roadmap for future growth. As we committed to fostering innovation, inclusivity, and academic excellence in higher education it is a milestone.

1.1. About Reports

This Completion Report is prepared after successfully completing the project for the “Establishment and Implementation of web-based Higher Education Humanities Information System (HEMIS) Software under the UGC directives for Digitalization of higher education as per the notice of the Guideline of UGC. The UGC has set a goal to establish and implement a centralized, integrated, comprehensive, web-based Higher Education Humanities Information System (HEMIS) at campuses to be integrated with the HEMIS established in the University Grants Commission (UGC) via the University. The system's architecture is envisioned to centralize and streamline data from affiliated campuses, enabling UGC to determine and allocate grants more efficiently.

The HEMIS Software is a user-friendly, multithreading, multiuser, comprehensive, dynamic, scalable, visually appealing, interoperable, and secure web-based software application under the latest platform as suggested in the guidelines by the UGC. After inputting the data of the concerned sectors of higher education, like students' enrollment, Teaching staff, Non-teaching staff, upgrades, and graduation by academic year by gender, faculty, level, and so on, to manage digital records and carry out informed decisions with the help of this system.

Section 6: Gender Parity Index (GPI)

6. Gender Parity Index

The **Gender Parity Index (GPI)** is a statistical measure used to assess the relative access and participation of males and females in a particular educational context. Typically, it is expressed as a ratio:

The Formula for GPI is as below:

$$\text{GPI} = \frac{\text{Number of females enrolled or attaining a certain level}}{\text{Number of males enrolled or attaining that same level}}$$

A GPI value close to **1.0** indicates parity between genders, whereas values below or above 1.0 suggest disparities:

GPI helps in understanding whether policies are successfully addressing gender imbalances. Data-driven insights from GPI can guide targeted interventions, such as scholarships, support programs, and outreach efforts. Educational authorities use GPI to monitor progress towards gender equality goals and to set benchmarks for improvements.

The GPI index by program, level, and faculty is shown in the table below.

6.1. Overall GPI in Enrollment Record

The GPI of the campus by program is presented in the table below.

Table 11. GPI index of the campus by program

Program Name	Level	Faculty	Gender				
			Male	Female	Others	GPI	Total
Bachelor in Business Studies	Bachelor	Humanities	24	56	0	2.33	80
Bachelor in Education	Bachelor	Education	37	126	0	3.41	163
Grand Total			61	182	0	2.98	243

The more female students studying on our campus is based on the calculated GPI shown in the above table. The higher number of female students studying in the Education faculty compared to the Humanities faculty. A GPI of 2.33 shows that the campus has a significantly higher proportion of female students compared to male students. In other words, nearly three female students are enrolled for every one male student.

Section 9: Student-Teacher Ratios

8. About Student-Teacher Ratios

The **student-teacher ratio** is a metric used to measure the number of students assigned to each teacher in a college. It gives an idea of the average class size and how much individual attention a student might receive. Lower ratios usually indicate smaller class sizes, allowing for more personalized instruction and Higher ratios might suggest crowded classrooms, which can impact learning quality. The standard formula of the student-teacher ratio is as below:

$$\text{Student-Teacher Ratio} = \frac{\text{Number of Students}}{\text{Number of Teachers}}$$

The student-teacher ratio is a key indicator that reflects the level of attention and support students may receive in an educational setting.

8.1. Student-Teacher Ratios on Campus

In the given data, the Faculty of Education has 8 teachers and 163 students, resulting in a ratio of approximately 20.38 students per teacher. This suggests a fairly balanced distribution, where each teacher is responsible for around 20 students, allowing for manageable class sizes and the potential for more personalized instruction. Similarly, the Faculty of Humanities, with 4 teachers and 81 students, shows a slightly higher ratio of 21.25, indicating a similar level of instructional support.

Table 20: Student-Teacher Ratios in the Campus

S. No.	Faculty of the Teacher	Total no. of Teachers	Total no. of Students	Ratio (student/teacher)
1	Education	8	163	20.38
2	Humanities	1	0	
3	Humanities	4	81	21.25

Sources: HEMIS 2081/082

Overall, the ratios in Education and Humanities are within a reasonable range, which may contribute positively to the quality of teaching and learning experiences. Maintaining a student-teacher ratio around 20:1 is often considered ideal for fostering effective communication, engagement, and academic success.

9. Student Enrollment Trends

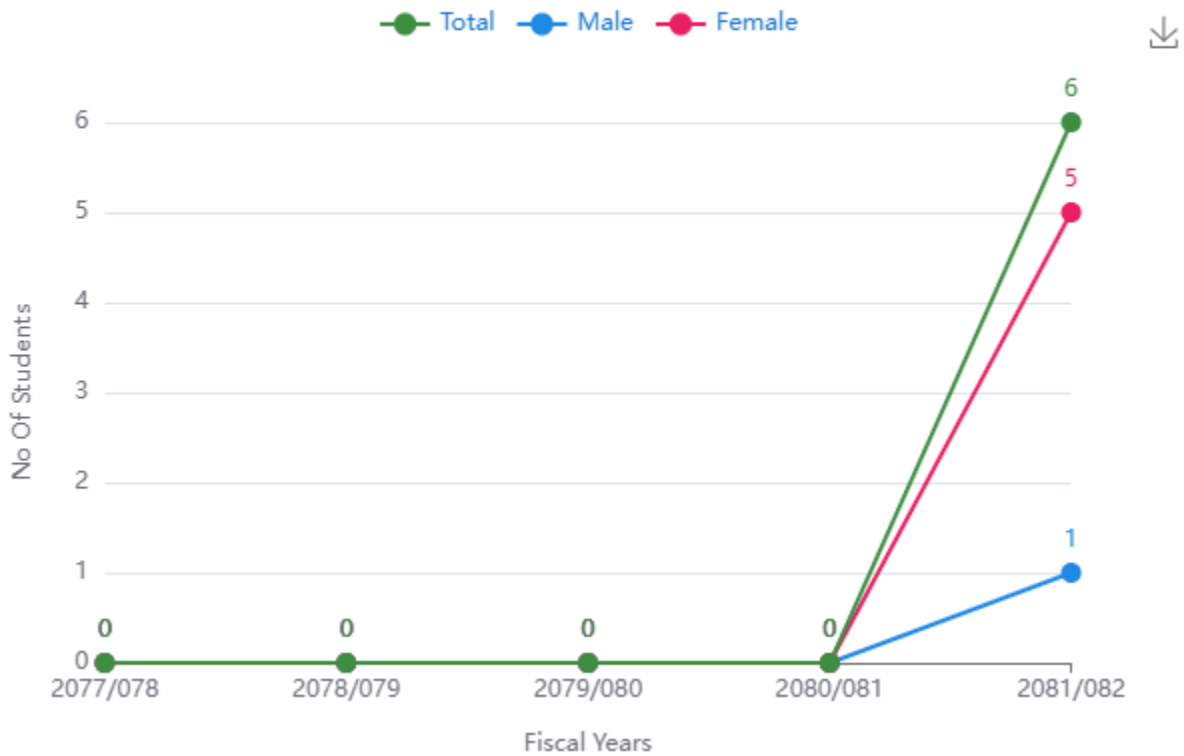

The student enrollment trend at Mahunyal Multiple Campus from fiscal year 2077/078 to 2081/082 shows a general decline followed by a slight recovery. Total student enrollment decreased from 62 in 2077/078 to a low of 39 in 2079/080, then gradually rose to 43 by 2081/082. Female student enrollment followed a similar trend, dropping from 50 to 28, then slightly increasing to 31. Male enrollment remained relatively stable, fluctuating slightly between 11 and 15 students across the years. Overall, while enrollment dipped in the middle years, the recent trend suggests a modest improvement in student numbers.

10. Enrollment by Level, Faculty, Program, Gender and caste ethnicity

Mahunyal Multiple Campus currently offers bachelor-level education through two main faculties: Humanities and Education. A total of **233 students** are enrolled across these programs. The Humanities faculty runs the **Bachelor in Arts(BA)** program, while the Education faculty offers the **Bachelor in Education (B.Ed)** program.

In the **Humanities faculty**, there are **81 students** enrolled. Among them, **25 are male** and **56 are female**. The students come from various caste and ethnic backgrounds. Notably, there are **22 Brahman, 23 Dalit, 10 Tharu, 1 Muslim**, and **25 students categorized as Others**. No students from Madhesi, Janajati, or Chhetri communities are enrolled in this faculty.

The **Education faculty** has a larger enrollment, with **163 students** in total. It includes **37 male** and **126 female** students. In terms of caste and ethnicity, this program includes **40 Brahman, 45 Dalit, 18 Tharu, 4 Madhesi, 2 Chhetri**, and **54 students** from the Others category. There are no Muslim or Janajati students recorded in this faculty.

Overall, the campus has a higher proportion of **female students**, with **182 females** compared to **62 males**. The enrollment data also highlights a diverse student population, with significant representation from the **Brahman, Dalit, Tharu, and Others** categories. The **Tharu** community has one of the highest numbers, especially in the Education program.

This breakdown illustrates both the gender disparity favoring female enrollment and the broad ethnic diversity present in Mahunyal Multiple Campus's student body.

11. Students Enrollment by Region (Mountain, Hill and Terai)

The Mahunyal Multiple Campus HEMIS report indicates that all 233 enrolled bachelor-level students originate exclusively from the Terai region, with no representation from the Mountain or Hill regions

Table 21: Students Enrollment by Region (Mountain, Hill and Terai)

S.No.	Faculty	Mountain				Hill				Terai				Grand Total
		Male	Female	Others	Total	Male	Female	Others	Total	Male	Female	Others	Total

Total		0	0		0	0	0		0	62	182		233	233

This concentration may reflect the campus's geographical location and its accessibility to students from the Terai. Notably, female students constitute approximately 74.6% of the total enrollment, highlighting a significant gender disparity favoring female participation. This trend aligns with national data, where the Gender Parity Index (GPI) in higher education is 1.09, indicating higher female enrollment overall. The absence of students from the Mountain and Hill regions underscores the need for targeted outreach and support programs to enhance regional diversity and inclusivity in higher education.
